SINGLE PORT 10/100/1000M GIGABIT POE INJECTOR

Product Description

This Briticom™ Single Port PoE injectors provide a simple, economical, high-performance and intelligent way for Ethernet PoE power supply and data communication.

This mid-span PoE injector has 1x2 Standard RJ45 network ports: one network port will use for upper Ethernet switches or other network devices and the other network port will support POE power supply output with network data output.

They can supply power to HD webcam through Cat5 Ethernet cable, in order that make it more flexible for the places difficult to connect to power supply and provide more efficient solutions.
