

eXtreme® Cat 6 Component-Rated UTP QuickPort® Jack

APPLICATION

The eXtreme Cat 6 jack is designed to be used with all QuickPort compatible products. The jack includes patented Retention Force Technology™ which promotes consistent performance over the life of the system. It features unique pair separation towers allowing for quicker and easier terminations. The jack is built on a 180-degree configuration with the punch field in the back, allowing for rear termination.

SPECIFICATION

The jack shall meet or exceed the requirements for channeland component-level performance as described in ANSI/TIA-568.2-D Category 6 standards, as well as the Class E requirements described in ISO/IEC 11801-1. The jack shall also be in compliance with all National Electrical Codes; compliant with ANSI/TIA-1096-A; UL listed; and independently verified. In addition to Category 6 compliance, the jack shall have the ability to support high-megabit and shared-sheath applications. All plastics used in construction of the jack bodies shall be fire retardant with a UL flammability rating of 94V-0. Termination of all jacks shall be 110-type insulation displacement connectors (IDC). The jack shall provide a ledge directly adjacent to the 110-style termination against which the wires can be terminated and cut in one action by the installation craftsperson. Jack wiring is universal and will accommodate installation color codes for T568A and T568B wiring schemes. The jack shall be individual snap-in style and the termination field shall be in the rear for easy access. The jack shall include a snap on dust cap with high pull-out force and shall fit in a variety of telecommunications wallplates, outlets, and fieldconfigurable patch panels and patch blocks.

COUNTRY OF ORIGIN

USA

FEATURES

- Terminates 26 to 22-gauge solid conductors and 24 to 22-gauge stranded conductors
- Terminates 26-gauge stranded conductors up to 5 times
- · Capable of multiple re-terminations
- · Gas-tight IDC jacks prevent corrosion
- Dual-layer T568B/T568A wiring label simplifies punchdown
- Patented Retention Force Technology protects tines from damage and increases system longevity
- Pair Separation Tower design facilitates separation of conductors and minimizes untwisting
- 180-degree configuration allows for rear termination
- Available in 13 ANSI/TIA-606-C compatible colors for color coding or organization
- Available individually, in bulk packages of 25, and in bulk packages of 150 with a JackRapid™ Punchdown Tool

DESIGN CONSIDERATIONS

- Use in any QuickPort housing to support eXtreme Cat 6 UTP connectivity in surface-mount, flush-mount, or modular furniture outlets and field-configurable panels
- Can be used in conjunction with other QuickPort snap-in modules for voice/data and video applications over UTP, coax, and fiber

STANDARDS COMPLIANCE

- ANSI/TIA-568.2-D (Cat 6)
- ISO/IEC 11801-1 (Class E)
- ANSI/TIA-1096-A (formerly FCC Part 68)
- cULus Listed
- PoE standards: IEEE 802.3af, 802.3at, 802.3bt, Cisco UPoE, and Power over HDBaseT™ (PoH) up to 100 watts
- · UL 2043 Plenum Certified

PHYSICAL SPECIFICATIONS

Dimensions: See page two

Materials: Connector Body: High-impact, fire-retardant plastic

rated UL 94V-0.

Spring-Wire Contacts: High-quality copper-based alloy, plated with 50 micro-inches of gold over 100 micro-inches of nickel for lowest contact resistance, maximum life.

Environmental

Conditions: Storage Temperature: -40 °C to +70 °C

Operating Temperature: -10 °C to +60 °C

WARRANTY INFORMATION

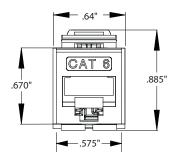

Limited product and limited extended warranties are rendered VOID if the installed structured cabling system is used for Power over Ethernet applications that exceed the product's specified power rating.
